EDITORS MESSAGE

Spring is coming. As the new editor of the "All Ears", You will notice that in this issue and going forward that we have added the following: Please send these to marg.zacher@gmail.com with the title in the subject line (ie; Brags)

- **Know Your Member** – this is by invitation (on a random draw basis). I will sent out a list of 10 questions to be answered. If you are selected, I hope that you will participate. Forward back your answers, along with a picture of yourself (no show shots please).
- **Litter News** – Fill in the new Submission form, along with 1 picture of your new arrivals. This is in addition to you still letting your director know of any litters you have (please still do this as you can always give more information to the director). If you are able to access the pre-fillable form, You can send me the picture of the litter, along with the following information: Sire – Dam – Breeder - # and breakdown of puppies - Date of Birth
- **Brag** – Fill in the new Submission form, along with 1 picture. This is in addition to you let your director know of your great accomplishments in any of the following arena's (Agility, Rally, Conf, etc). If you are not able to access the pre-fillable form, you can also send me one picture, along with the following. Registered name - Call Name - Owner and/or Breeder - win/or title attained and show. The picture can be either a showshot, casual or action shot. Only wins within the past 6 months. – **ONLY 1 brag per dog, per quarterly newsletter.**
- **Rainbow Bridge** – This is a new section: It will be setup as a ½ page FREE ad. You can design it yourself, or get John Morin to assist (donation to rescue).

Another wonderful add, is with the permission of the executive, we will be adding in pages from the Papillon Canada Handbooks from 1992 and 2000. These will be dispersed throughout 2022 issues. Thank you to Nancy Lopaschuk for scanning and forwarding these wonderful resources.

All Ads are \$10 for each page. They must be sent in ad ready (either PDF format, JPEG or Word) 8 ½ x 11. Funds must be e-transferred to the treasurer donlenpaps@aol.com before your ad will be published. If you cannot send electronically, then contact the treasurer to make necessary arrangements.

Executive – Director Reports

- These reports will have a picture 1 picture at the beginning of their reports (EXCEPT for committee or group events (ie: booster, specialties, picnics, etc). The person submitting me the report can decide on if it's a picture of themselves, or one that they received from a member. The picture should appear at the beginning of the report.
- Committee, Rescue, etc reports – these will obviously have multi pictures of either the activity or rescue papillons.

Calling all members for pictures: If you have a picture of your papillons, please forward them to me. I'm looking for pictures to use on the cover, inside the newsletter, ETC (randomly).

Page link to the executive – directors and committee reports. If there is any report from these individuals, then you will see a red (dash) box around their name. Click and you will be directed to that report. As well, table of contents, where you can click on the title in the table, and you will directly to that section.

If anyone has any questions or concerns: please feel free to contact me
Again, thank you everyone. Margaret Zacher

WARNING

It appears several members of the club are receiving request from me via email to send e-transfers from personal accounts.

Please be cautious of any emails asking for money.

My email is donlenpaps@aol.com or for rescue papilloncanadarescue@gmail.com.

If you receive anything asking for money from **me** please send me the email to one of the address above - to confirm or just give call me.

SCAMMERS EVERYWHERE PLEASE BE CAREFUL.

Donna Edwards
Treasurer Papillon Canada and
Papillon Canada Rescue

President's Message

We, like much of the rest of the country, have been shivering in a deep freeze. But this too will pass and we have only a month or so to go before it is officially springtime!

We have had one dog show here in Alberta this year, which was very enjoyable. So good to see friends again and see all the new dogs! I was so pleased to see Jennifer Raymakers with a new phalene girl in the ring at the show this January! Yeah for the Phalenes!

I would like to thank Margaret Zacher, our new editor, for a wonderful Christmas edition of the newsletter. I am looking forward to this next issue!

A big thank you also goes out to Toby Hatley for working so hard on getting our new website up and running! Please go have a look at the new format. There are more changes to be made, but the new look is fresh and as we add more to the website, it will only be better and better! You may notice that Papillon Canada Rescue is again a part of the Papillon Canada site. I think this change is a good one and allows us to reduce costs to rescue as they will no longer be running their own website.

Last year at the AGM the members present voted to reduce the number of Champion offspring required for a male to earn the ROMC (Record of Merit Canada) designation. The number of Champions was reduced from 10 to 6. Those Champions can be Conformation Champions (CH), Obedience Trial Champions (OTCH), Rally Champions (RCH), Agility Trial Champions, Trick Dog Champions (TDCH) or any other Champion designation that CKC recognizes. There is a form on the webpage if you would like to submit for your dog. The number of Champion offspring required for a female to earn the ROMC designation remains the same at 4. All Champion offspring can only be counted once, so even if the offspring is a Conformation CH and an OTCH, the offspring will only be counted once. All the required information should be sent to Robin Mercer, 1399 Elizabeth St, RR 1, Campbellcroft, ON L0A 1B0. If you have questions, call her at 905-797-3074.

We have a number of boosters coming up and I urge all of you that show your dogs in Conformation or compete in Obedience and Rally to support these efforts! I have not heard from any group or area that is willing to hold a National Specialty this year, so the boosters this year may be all that we have to showcase our dogs.

Booster on May 20-23 at the Kelowna Kennel Club show under Judge Val Hansen with prizes and Rosettes for Best of Breed, Best of Opposite, Best of Winners, Winners Male, Winners Female and Best Puppy. Also a prize for the highest scoring Papillon in Obedience and Rally. More details to follow.

Booster at the Nanaimo Kennel Club Show on Saturday, June 18th with Mr. Sangkunakup of Thailand judging. Rosettes and prizes will be given for Best of Breed, Best of Opposite, Best of Winners, Winners Dog and Winners Bitch, Best Puppy, Best Baby Puppy, and Best Veteran. More details will be found in the Nanaimo Kennel Club Premium List.

In the East a **Booster** at the Evangeline Kennel Club Shows in Wolfville, NS on Sunday, June 26 under Judge Michelle Scott. Prizes will be given to the winners of Best of Breed, Best of Opposite, Best of Winners, Winners Dog, Winners Bitch, Best Puppy, Best Baby Puppy, Best Veteran and Best Altered.

Booster during the shows August 29-31 at the West Kootenay Kennel Club in Castlegar, BC (Final date to be determined) under Judge Mary White. Rosettes and prizes will be presented to the winners of Best of Breed, Best of Opposite, Select Dog, Select Bitch, Best of Winners, Winners Dog, Winners Bitch, Reserve Winners Dog and Bitch, Best Puppy, Best Baby Puppy and highest scoring Papillon in Obedience and Rally.

Enjoy the weather as things start to warm up! It is always fun around here as it warms, muddy paw prints everywhere, but the dogs so enjoy being able to get outside and run!

Louann

Papillon Canada Rescue – BC Report – March 2022

Submitted by: Julia Beaton - BC Papillon Canada Rescue Rep

Hello Papillon Canada Club Members!

Sorry I missed my Rescue Report in the last Newsletter. We have been very busy with Papillon Rescue here on the West coast...

Late one evening few months ago, I received a phone call from a lady requesting I take her 9 year old Papillon, **Zoey**, as she & her family had to move suddenly and could not take their dog with them. I

phoned my daughter, who was on her way home from work at the time and would be driving very close to the area where Zoey was located. My daughter & Zoey's family met at a gas station and the owner put the crate with Zoey in it in my daughter's vehicle, signed the surrender form and was gone. Just like that! My daughter arrived home and carried the crate into her house and opened the door. Zoey was wearing a harness but somehow had attempted to get out of it and was now tangled up and stuck in the crate. My daughter, who has dogs of her own, including Papillons, is very dog savvy. But she found out very fast that Zoey was not having any help from a stranger to untangle her harness, so I was called for help. Of course, I recommended to my daughter that she try giving Zoey some treats. Fortunately, this worked well and the harness was removed while Zoey chewed happily on a

chicken tender. Yummy! But now Zoey had nothing on her to attach a leash to!

Long story short is that Zoey exhibits "fear aggression" and will bite when approached by strangers. She is also a runner and will flee away very quickly if given the chance. If freed, even in the safest of fencing, she will somehow find away to escape. Never to be seen again! We did not hear from her owner again and we have had no contact from her since her dog was surrendered. Zoey is still with my daughter and will remain there as a "Permanent Foster" in Papillon Canada Rescue. Unfortunately, due to her fear aggressive nature and her fast reaction to bite if approached, as well as being a HUGE flight risk if given the opportunity, she is virtually "unadoptable." We were told by her owner that she came from a breeder across the border. Therefore, we had no chance of locating that breeder. Thankfully, however, she was already spayed.

Since receiving Zoey into Rescue, she has been to the Vet for a dental, with the Vet giving us a sedative prior to us dropping her off. At the same time we also had her vaccinations updated and had her microchipped. Unfortunately dogs with these erratic behaviours are usually “unadoptable” as they are deemed unsafe. Zoey will remain in our Papillon Rescue program till it’s time to say “goodbye.” She is 9 years old and quite healthy at the moment. With much patience, she is coming along with my daughter and family but if approached by any visitors in the house she has to be on a leash for everyone’s safety.

Last month, due to the flooding situation, we welcomed a 14 year old spayed female Papillon into Rescue. Her owners needed to re-home themselves and could no longer keep her with them. So after hearing about this little Papillon, we immediately stepped up to take her into Rescue. **Bridget** is about 14 years old and sadly, it seems she has NEVER received a dental in her entire life! Her mouth is the worst I have ever seen in all my years of Rescue! She has 4 remaining teeth, all abscessed and 3 fistulas, so her nose drips constantly, with her lower canine extremely loose and sticking out! Apparently, she was a breeding dog whose last litter was in 2014 when she gave birth to a stillborn puppy. Thankfully, at that time, her Vet took the opportunity to have her spayed. This was her last Vet visit and she remained with her owners till recently, following terrible flooding in their area, resulting in her owners losing their home.

Bridget is the sweetest little soul, who will also become a “Permanent Foster” in Papillon Rescue due to her age. This week she will undergo an ultrasound procedure because she does have a heart murmur. If the results of the ultrasound are positive, she will undergo dental surgery on the 4th of March. Thankfully, her blood work and urine tests came back with good results. This lovely little girl has a spring in her step and a zest for life. She absolutely loves all the attention she is now receiving! The Vet costs for this little senior lady will likely be quite high. If any of our Papillon Canada Club members wish to help with the Vet costs of this beautiful lady it would be very much appreciated!

As I write this today, the second last day of February, I took in a 3 year old neutered male Papillon, after receiving a call from a man who had been given **Roscoe** the Papillon by someone who had been evicted from the mobile home park where they had been living. Roscoe is a beautiful boy, with a lovely personality, although he is on the larger size for a Papillon. He will be visiting our Vet this week to say “hello” and since he came into Rescue without any Vet records, we will now need to have him vaccinated and microchipped. I’ll keep you updated on this beautiful boy in our next Newsletter.

For all those Club members who have donated to “Papillon Canada Rescue” in the past and present, I would like to say a big “Thank You!” Stay Safe everyone!

SECRETARY/MEMBERSHIP CHAIR REPORT

Submitted by: Kathy French

Papillon Canada Secretary & Membership Chair & Benevolent Coordinator

As I write this in early March, the snow that is piled up in our backyard here in Winnipeg is almost up to the top of our 6 foot wooden fence in some areas. We have had nearly 156 centimeters of the white flakes this winter, as compared to our average snowfall of 92 centimeters. Last year at this time, we could almost see little bits of grass trying to peak through. This year, however, it feels as if we may still have snow into June! We have also had unusually long periods of frigid weather, with temps in the -30's, going on for weeks and weeks. Our little Phalene, Oakley, has had to make do with running "zoomies" around the "Figure 8" snow path that my husband Roger has created for her with our snow blower. Climate change!

And now there is a war raging between the Ukraine and Russia. I can hardly bare to watch the News these days. The horrific scenes of loss and devastation and the millions of Ukrainian citizens fleeing their homeland in an effort to survive are beyond comprehension in this day and age. My heart goes out to all Club members who have family & friends displaced and suffering the consequences of war. If only we could all get along amicably, learning to share, just as we teach our dogs to do.

It has also been almost 2 years since the World Health Organization declared Covid-19 to be a global pandemic. The date was **March 11, 2020**. I can hardly believe that 2 years have passed since then. On March 13, 2020, my husband and I welcomed 2 of our dog friends over to our house, for what we call a "Pappy Playdate." We gathered for lunch, with our dogs playing together in our backyard afterwards. Little did we know that our get-togethers would be few and far between for nearly 2 years. On the bright side, indoor home Obedience sessions have been the order of the day.

Thankfully, with Covid transmissions & hospitalizations now declining significantly here in Manitoba, and it seems across Canada, Covid restrictions are also declining. We have finally been able to once again get together for play dates with our dogs. We continue to be filled with gratitude for our Phalene, **Oakley**, and our 2 cats, **Andy & Ella**, who are our constant companions. May we all be blessed with the joy that our furry friends provide for us, especially during challenging times.

MEMBERSHIP RENEWALS

Throughout the Fall of 2021, as well as into January & February & March 2022, I have been very busy accepting and processing Papillon Canada Renewal Applications & membership fees. I am grateful for the assistance of our Club's Treasurer, **Donna Edwards**. We seemed to work well together as a team, emailing each other regularly. The membership count this year stands at **81**, which is up a notch from last year. **10** of these are **Joint memberships** & **11** are **Life memberships**. Membership renewal email reminders were sent out by Regional Directors & appeared to be somewhat helpful with regard to encouraging membership renewals. Personal email reminders were also sent out by me to a handful of Club members and also proved to be helpful. However, for a variety of reasons, **5** Club members did not choose to renew their memberships at this time.

This year marks a milestone for Ontario Club member, **Olga Gagne**, as she joins the ranks of 10 others who are **Life Members**. Olga has now been a Papillon Canada Club member for **30 years**, having joined our Club in **1992**. Congratulations to Olga, who has been a very valuable member of our Club, serving in various roles on the Board throughout the past 30 years!

There have been **2** new Club member applications approved in the past few months. I would like to extend a very warm **Welcome** to the following new Club members...

Jennifer Scott

375 Woodpark Ct. SW
Calgary, AB
Email: scottjl@telus.net

Sponsors: Toby Hately & Louann Hansen
Jennifer is involved in Conformation & Obedience.

Jayne Russell

32006 – 292 Avenue E.
Foothills, AB
Email: jayne.russell@xplornet.com

Sponsors: Louann Hansen & Toby Hately
Jayne's 2 Papillons are well loved & cared for companion pets.

Welcome also to Cynthia Holborn, who is BC Club member Patricia Baisi's daughter. Cynthia now holds joint membership with Patricia. Cynthia's son, Spencer, was a Junior member with his Pap several years ago.

Cynthia Holborn

Email: blueangel8@shaw.ca

*At present, there is **one** New Membership Application pending.

Membership breakdown is as follows:

BC – 28, which includes 5 joint memberships
AB – 14
SK – 2, which includes 1 joint membership
MB – 5, which includes 2 joint memberships
ON – 18, which includes 2 joint memberships
QC – 1
NS - 5
NB - 1
PEI - 3
NFL - 2

International

Bermuda - 1
Brazil - 1

Regional Directors:

Representation in Canada is as follows:
BC – 28 members, 2 Directors
AB/SK/MB combined – 21 members, 1 Director
ON and QC combined – 19 members, 2 Directors
Atlantic Provinces – 11 members, 1 Director

MEMBERSHIP ROSTER

I am in the process of preparing the **2022 Papillon Canada Membership Roster** and I will email it out to all Club members, when I have completed the updates. The Papillon Canada website will also be updated, with any necessary changes. Please do not hesitate to contact me throughout the year if any additional changes and updates to the Membership Roster or Website are necessary.

“THANK YOU” FROM PAPILLON CANADA RESCUE

Thank you to Club members who included a donation to **Papillon Canada Rescue** in with your renewal form or as an e-transfer – **Alanna Downton, Kathy French & Roger Fontaine, Olga Gagne, Kelley & Case Laan, Sharon Moore, John Morin, Joanne Mysak & William Shrubsole, Ellen & Tom Pollock, Angelika & Neil Sirois, Carol Swan-Laing, Moira Ure**. My apologies if I have omitted to include any other Club members who have made a donation this year. All donations go directly into the medical care, rehabilitation and re-homing of the Papillons in need who come into Rescue’s care. There have been several Papillons in B.C. who have recently come into Rescue so your donations will be well used.

Thank you also, to everyone who placed an order and purchased a **2022 Papillon Canada Rescue Calendar** for yourself, as well as for family and friends. Once again, I would like to offer a big “**THANK YOU**” to **Dietlinde Wall** for volunteering to take on the task of creating these calendars, sending them to the printers & mailing them out to those who submitted orders.

Dietlinde has volunteered to prepare our calendars for the past 3 years and is now retiring from this task. As a result, we are in the process of recruiting another Club member or Club members to volunteer for this very important job. Please contact our **Papillon Canada Rescue Coordinator, Toby Hately**, if this is something that would be of interest you.

CONDOLENCES

On behalf of the Papillon Canada Board of Directors, as well as all Papillon Canada Club members, I would like to offer my sincere condolences to Ontario Club Member, **Mandiee O’Brien**, on the recent passing of her mother-in-law. I would also like to offer my sincere condolences to Alberta Club member, **Catherine Redding**, on the recent passing of her beloved husband. Our thoughts and prayers are with Mandiee and Catherine as well as with any other Club members who have lost family or friends or fur babies this past year.

BRITISH COLUMBIA INTERIOR REPORT – March 2022

Director – Nancy Lopaschuk

Here it is March and I think we are all looking forward to spring and getting out to shows and trials. From reports from members in my area, I hear that many are getting tired of winter and are getting anxious to get outdoors with their dogs

Yvonne Lord & Frank LaFrance – Merritt BC

Frank and I have been busy raising puppies since early January. Stormy gave us 4 little beauties and they have filled our time in a big way. We had only expected 3 from our ultrasound but Stormy baked an extra. I also do some training, so Levi and Tempe worked on videoing tricks for a DMWYD tricks title. Tempest received her trick title. We are looking forward to doing some rally trials (CARO and CKC) this spring and summer with both Stormy and Tempest.

Margaret Zacher (Ladymagic) – Kelowna BC

Sailor finished 2021 with #1 Papillon #2 Toy in Conformation, #1 Papillon #4 Toy in Rally, and #2 Papillon and #2 Toy in Obedience. This is the first time that a papillon has attained these standings in one year in 3 different rings. In 2021 - sailor, in obedience, completed his CD and his CDX and in rally, completed his RI, RA and RE. He also completed this Trick Dog Championship. We could not be any prouder of our man. Not to be outdone, his mom - Prada - Am/Can Grand Ch Ladymagic Arkeno Fashionista, TDN - completed her trick dog novice title and is well on her way to Trick Dog Intermediate. In 2022 at the first show in Canada, Sailor was awarded 2 group 2nd and Reserve Best In Show. The weekend prior sailor was in the USA collection more American Grand Championship points. He was Best of Opposite Sex in all 7 shows. The ribbons are Red/White and being Canadian, Funny how that works. On Feb 14 we submitted our videos to DMWYD and Sailor was awarded the new title of Trick Dog Grand Champion. We hope to see more of our friends at the upcoming shows.

Nancy & Richard Lopaschuk (Nanrich Perm Reg'd) – Cranbrook BC

No shows or trials for us this year yet. Fortunately, our local Cranbrook club has been holding drop-in sessions weekly this winter where we practice conformation, obedience and rally. The club was fortunate to find a rental building at the Exhibition Grounds as our previous school gymnasium was unavailable during Covid.

Only show news from Nanrich is the year end stats. Puppy "Never" was shown 2 weekends in 2021 and finished as #1 Papillon Puppy Conformation, # 13 Papillon overall in Conformation and #5 Owner Handled Papillon. Her grandmother "Skyler" also only shown 2 weekends in 2021 ended up #5 Papillon Conformation, #2 Owner Handled Papillon and #9 Owner Handled in Toy Group.

Kelley & Case Laan (Valifyre) Maple Ridge BC

We are very happy to announce that "Flint", MBIS/MBISS Can GCh/Am GCHP Valifyre Freespirit Icy Sparks is back home from his USA tour. During his time in the US, he was awarded multiple BIS, RBIS and BISS, was #1 Papillon #7 Toy for 2020 and #1 Papillon #5 Toy for 2021. Along the way Flint was also awarded Group 2nd at the AKC National Championship show Royal Canine in 2020 and won his fourth National Specialty show (2 Canadian, 2 American). Sincere thanks to his US team, Madeline and Jennifer Mosing, Brian and Lori Livingstone, and Livingstone Handling team for the excellent support and care that Flint received.

At his first Canadian show in two years, Ladies Kennel Club, Flint shown two days was awarded a Group 1 and a Group 2. We are also very excited that Can Ch. Valifyre Goodbye Kiss delivered a lovely litter of two girls and one boy bred to Disyre Ever Ready. These pups are a welcome treat after two years without a litter and will be keeping us busy over the next few months.

Regards, Kelley

Moire Ure – (Anacott Papillons & Phalenes) - Grand Forks

It is quiet at the Ure house. I have been given permission to run a booster at the West Kootenay Kennel Club shows being held on August 28th to August 31, 2022. There will be 4 All Breed Shows and 1 Group 5 Show - so 5 sets of points available. The booster will be held under judge Mary White (Pending CKC Approval). There will be suitable prizes for Best of Breed, Best of Opposite Sex, Select Dog, Select Bitch, Best of Winners, Winners Dog and Winners Bitch, Reserve Winners dog and Reserve Winners Bitch, Best Puppy, Best Baby Puppy, High in Trial at one of the obedience trials and High Rally Score at one rally trial. Hope to see many folks come out and enjoy boundary hospitality.

This will be the second booster in B.C. as Margaret Zacher is planning a booster in connection with Kelowna Kennel Clubs shows in May.

Not much news on the home front. I am watching the 2 youngsters, Rowdy and Impi, grow up. I am hopeful that one day soon I will be back in the show ring. So, I am looking forward to seeing everyone.

I should mention that our renovations are finished, and we have a wonderful new/old house. It was a great pleasure to start getting things organized inside in the way of recovering soft furniture etc. Most of it was done before the arrival of all the family for Christmas.

Moira

RAINBOW BRIDGE

On a sad note we lost our beautiful Grand Dame **Ch Canisphere's Ima Hot Topic** aka Page. Page was in my opinion the best show dog ever! She loved the ring, people and life in general. She won many awards but most of all our hearts and the hearts of many people and

judges. She only produced 3 pups for us but that was plenty! What she did not do in quantity she did in quality. All of the dogs mentioned above would not be here if it were not for her.

We can't thank Karen Shiels enough for letting her come to us. All breeders should remember when starting out it's not the winningest Stud dogs or the most important name, its having a quality bitch to start your lines! In Page we had this in spades miss you baby girl.

Darlene and Doug Kelly Riesa Papillons

Alberta/Manitoba/Saskatchewan Report

Paradisewing Papillons, Jennifer Raymakers

Hello everyone! Here we are only 2 months into 2022 and it's already shaping up to be a busy year. We were lucky to make it out to EKKOC show in Calgary, what a blast we had there. I was very excited to introduce the newest member of our household Isabelle De Capella' Star "Izzie" imported all the way from Santiago Chile from my dear friend Daiana Bettin Macuco. Izzie is my very first drop ear and we are so excited to have her here in Canada. She managed to pick up her first points towards her Canadian championship on this first weekend out which was great to see. She is a character and a half and I am very excited for her future here at Paradisewing Papillons.

Here is hoping we can make it out to some more shows this year, things are picking up big time at work so I will be glued to my office chair for the coming months, fingers crossed I can sneak away to attend a show or two.

Good luck to everyone over the coming months
Jennifer

Debra Robertson

Group 1 and Group 2 placings for GCH Valifyre Hidden Treasure at the COKC show.
Thank you to Linda Smith for stepping in to show Cache when I was busy in the obedience ring.

So proud of Riddle achieving her OTCH in Brandon at age 10!
Riddle is my 4th OTCH Champion. Multi HIT, OTCH CH Riff Raff Ridiculed RAE CDI RI CAX RATO ATD, AM CD RE.
Breeder Riff Raff Papillons, Mardell Leppington & Linda Smith. You both are so supportive, helpful and I truly value your friendship. To my husband, Ken thank you for all your support!

2022- OTCH achieved (2 High in class placements)
2021- #3 Obedience Pap & #4 Obedience, Toy Group
2020- #2 Obedience Pap & #3 Obedience, Toy Group
2019- Best Veteran Bitch, USA Papillon Nationals
2018- BOB Alt. In Specialty, Papillon Canada Nationals
2017- BOS Alt. In Specialty, Papillon Canada Nationals
2016- #3 Obedience & #8 Obedience, Toy Group
2015- #1 Rally Obedience Pap & #3 Rally, Toy Group
2015- #5 Obedience Pap & #10 Obedience, Toy Group
2012/2013- Multiple Group Placings

Rae Anne Papillons - Toby Hately

We have only attended one show since November 2021. The Evelyn Kenny Kennel and Obedience Club put on a great show in January and the organizers did a fantastic job!

Hunter showed his little heart out. He took Winners Dog on the Friday and Best Puppy all weekend. I am very happy with this Radar/Ruby boy. He is sweet and fearless.

We look forward to more shows and warmer weather! Tommy will make his debut in the spring of 2022. He is an Arson/Fancy puppy and another very attentive and sweet boy with a heart of gold.

Katie has received her Grand Champion Certificate in the mail. We are very proud of this young girl and look forward to puppies in the future.

Riesa Papillons - Darlene and Doug Kelly

Well 2021 was a year full of wonderful highs and some very low lows. There was controversy, drama and some very fun times with lots of laughs. We had a litter of 3 from Reba and Rocky unfortunately they were premature and we were only able to save 1 little special boy. This little boy is very sweet and naughty he has gone to live with co-owner Rollande Larsen in Thunder Bay. We look forward to watching Riesa n PassionPaps Keep Rockin the Boat at Rokila aka “ Dougie” and Rollande in the ring soon.

It has been a very long cold winter but we have been able to keep ourselves busy in this cold. I was laid up for several months after surgery but I did manage to get out and about recently. Doug had to take over handling Jemma to her Championship in November. He did a great job and now she is Ch Riesa’s Just a Little Anarchy.

Jemma’s brother Jax aka Riesa’s Jack of All Trades is doing phenomenal down south with co-owner Joy Carpenter and Linda Foiles. With the help of a friend we found out GCh Riesa’s Jack of All Trades is the youngest owner handled GCh Papillon in the US. Jax was handled to his Grand by Joy Carpenter by the ripe old age of 9 months. As breeders we could not be more proud of this Bizzy x Rocky son and Joy.

I was finally able to show again in February, Havoc aka GCh Riesa n PassionPaps Grand Adventure with RiffRaff and I went to our local show in Brandon. We braved the blizzard and made it to Brandon. I am so happy we did as Havoc did great at the show. He had never been to an indoor show due to my injury and Covid cancelations. Havoc was born at the height of Covid and was not shown until he was 1 ½ years old. After being out for only 4 weekends he received his Grand the first day of the Brandon show.

On a sad note we lost our beautiful Grand Dame Ch Canisphere’s Ima Hot Topic aka Page. Page was in my opinion the best show dog ever! She loved the ring, people and life in general.

Pixel Papillons, Stephanie Thygesen

I have been a member of Papillon Canada for a couple of years, but this is my first-time submitting content.

A bit about myself (for those who don't know) - I have loved papillons since I was a wee kid; to me, they are the perfect blend of intelligence, activity, beauty, and grace in a compact size. I purchased my first papillon puppy (GCh Marrons N Flinters Be Dazzled - "Ecco") from Mary Ronald (bred by Nancy Verhoog) in 2014. Ecco quickly became my heart dog, a partner in crime, and the sweetest little 'peacekeeper' you'll ever meet. In December 2020, I produced my first homegrown puppy - Pixel Animato A Link Between Worlds - "Ravio", he was a chunky little pup, but has grown into a beautiful little dog both inside and out. I can't thank Louann Hansen enough for letting me use his sire, Can GCh, Am Ch Animato Andali Polo Red Intense - "Red". Ravio was shown a bit this past summer and he shocked me by taking Best of Winners at the Papillon Canada National (at 8 months old). He then earned his Championship on the first day at Evelyn Kenny show (November). And this year, he showed his little heart out at Evelyn Kenny show (January) and took Select Dog 2/3 days. So far he has collected 9 points towards his Grand! I am so happy with this little man and look forward to what the future may hold.

Papillon Canada Rescue

Papillon Rescue has assisted in one adoption. This lady's mother had passed and father had been hospitalized reached out for assistance. She was not interested in surrendering the 2 purebred pups, as she wanted to stay a part of the process and had promised her dad that she would keep tabs on them. Jack and Jill have found a new home where the lady can visit them and give her father updates.

The website is coming along nicely and I think most members have joined up. Thank you, Brittany for your outstanding work on our behalf.

Here are the statistics on the website:

Dietlinde has resigned from the calendar fundraiser. We would like to thank her for all the fantastic work she has done for us over the past 3 years.

We will need to look at the calendar as a fundraiser going forward and may look at other fundraising opportunities. If anyone would like to take this on please contact me at toby.hately@gmail.com.

There has been some interest in doing provincial Papillon Picnics. Is this something we can do to raise money for the Rescue? Does anyone have interest in heading up a picnic? If so, please let me know.

Website Report

Here is the website report provided by Brittany Hately.

January - February 2022

Alberta Show News – Louann Hansen

I don't have much of anything to report from my house so thought I would do a write-up of the last show.

Evelyn Kenny Club Show in Calgary, AB, January 28, 29 and 30

Our first show in Alberta of the 2022 show season was held downtown Calgary at the Agriculture Centre on the Stampede Grounds. It had been a while since I had been down to the grounds and aside from the big charge for daily parking (\$15), it ended up being a pretty nice venue, especially since we still have no spectators allowed at the shows. We had a nice entry of Papillons each day 4-6-2-1. For those who may be reading this and not know what those numbers mean, in the conformation shows the first number represents the number of male dogs entered that do not have their Championships yet, the next number is the number of female dogs entered that do not have their Championships, the third number is the number of males entered who are already Champions and the last number is the number of females who are already Champions.

On Friday, Papillons were judged by Michael Hill. His best of breed was Margaret Zacher's Sailor, GCH GCHEX Ladymagic Topflite Windcatcher CDX RE TDCH. Sailor went on to win Group 2! Best of Opposite and Best of Winners was my Autumn, Animato Autumn Splendor for 3 points, Winners Male and Best Puppy was Toby Hately's 6-9 month young boy, Hunter, Rae Anne's Off The Grid. Select Dog was Stephanie Thygesen's Ravio, CH Pixel Animato A Link Between Worlds, Select Bitch was my Cookie, CH Animato Buy Me Diamonds. Reserve Winners Male was Natalie Sauner's Gibby, Bluechip Meet Me At Gibraltar, Reserve Winners Female was Carole Dyck's Prestwick's Lady On Fire.

Saturday we were judged by Jean Tremblay. Mr. Tremblay also picked Sailor as his Best of Breed. He later gave him Group 1 and Kristen Francis, who was judging Best In Show awarded Sailor Reserve Best In Show!!! Big Congratulations on that win! My Cookie was the judge's Best of Opposite, Best of Winners and Winners Male was Carole Dyck's, Trooper, Prestwick's Here For A Good Time. Winners Female was Jennifer Raymakers' new Phalene girl, Izzie, Isabelle De Capella'Star. Select Dog was Jennifer Raymakers' Arson, GCH Runway's 'N Paradisewing's Set The World On Fire. Best Puppy was again, Toby Hately's Hunter. It was awesome to see another Phalene in the ring! Welcome to the world of drop ears, Jennifer!

Sunday our judge was Glen Stark. Mr Stark also thought Sailor was the best on the day and later awarded him Group 2! Best of Opposite was my Cookie, Best of Winners and Winners Female was Jennifer Scott's Spice, Magic's Fire And Ice. Winners Male was again Carole's Trooper, which finished his Championship! Select Dog was Stephanie's Ravio and Best Puppy was Toby's Hunter.

It was a great weekend! Congratulations to all the winners!

ADVERTISE EMAIL – MARG.ZACHER@GMAIL.COM

AD are \$10 for each page. They must be ad ready (PDF format, JPEG or Word) 8 ½ x 11. Funds must be PAID to the treasurer before your ad will be published. They can be e-transferred or you can contact the treasurer to make other arrangements. donlenpaps@aol.com

If you require assistance to design your ad, you John Morin will be happy to assist (for a donation to Rescue). John can be contacted at johnpmorin@gmail.com

DONNA EDWARDS - ONTARIO

1. What is your favourite series, movie or book?

Not sure I can say I have a favourite movie, series or book. I am an avid reader and may read one author until I read every book, he/she has written or I may try a new author every new book I read. I am a member of our towns library board and am a strong advocate for libraries and believe they are one of the best places to spend a rainy afternoon. Similar with movies and series. I guess if I had to choose a movie, I have seen several times and still enjoy it would be Jurassic Park or Legends of the Fall. Right now, a series I watch as much as I finding it irritating is 90 Day Fiancé.

2. How long have you been evolved in Papillons and/or Dogs?

I got my first papillon about 15 years ago. I have always loved dogs and was doing obedience with my English Springer the first time I saw a papillon. It was love at first site. So I started going to confirmation shows and talking to papillon owners. I tried for a while and could not buy one. For some reason everyone I talked to only sold pets. I had decided I wanted to show as well. My sister who lives in N.S. had purchased one in Ontario and asked me to fly down with it. She had bred Shelties for year and had also decided she wanted a papillon. She spoke to the breeder of her papillon who happened to live 15 minutes from me and I got my first girl from her. Unfortunately, my first pap developed some health issues and passed away at about 2 years of age. Well as we all know one led to many others. Right now, I only have 2 senior girls but am definitely interested in getting another show girl once I retire completely with will happen within the next year. We also have a 3.5 lb yorkie in the house who keeps us busy.

3. What is the activity or activities that you do with your dog (ie: Agility, Breeding, Rally, etc)?

Right now, activities with my dogs include walks and lots of love for them. My girls are 15 and 10 so as seniors they are enjoying their retirement. I showed both of them in confirmation

4. What part of the dog activities do you like the most and why?

Confirmation is where my interests lie right now. When I first got involved with pure bred dogs, I did agility and obedience for several years. I developed some health issues with age and just found confirmation easier to handle.

5. What variety of Papillon do you have or have bred (Erect Ear or Drop Ear or Both), and tell us about them?

Erect ear is all I have had. I think the drop ear are also beautiful but have never owned one. My first girl was such a special dog. She did well at the shows and I bred her only once. She developed some health issues when she was about 2 and a half that the vets tried hard to treat but she just never got past them. The rest of my papillons have been nothing but a picture of health. Miss Chatelaine who is 15 did extremely well at the shows. She gave me 4 lovely litters of 3 puppies. We have had as many as 5 in the house at once. Every papillon we have had was a treasure and we enjoyed each one.

6. What do you think is the difference between a good dog and a great dog?

For me I look at the shape of the head on a papillon. To me a nice stop is important. However, I cannot say what the difference between a great and good dog is. Some dogs take charge of the ring and really show they belong there. Maybe that is a great dog.

7. What would you like to tell the person/mentor that got you involved in Papillons?

I wish I had a mentor. I sure the mistakes I made and decisions I made would have been very different. Since becoming more involved I have met a few people who have become very valuable for advise. It is great to have someone to go to with questions.

8. If you could give your 20 yr old self advice today, what would it be?

At 20 I was too immature to listen to any advice. But if I could advise my 30-year-old self I would say. Do what you want for you. It's good to do for family and give time to them but remember to take steps and make time to do some things for yourself.

9. What can each of us do to help ensure that our sport and club prosper?

We need to be open and inviting to new comers. They need to be encouraged and welcomed into the circle. No matter what area they decide to take part in.

10. Through the years the purebred fancy has changed greatly, what do you miss the most?

To be honest I have not noticed that much of a change. Perhaps because I have been on the fringes and never too involved in the actually running of things I cannot comment on any changes.

**OLGA GAGNE – ONTARIO**

1. What is your favourite series, movie or book? When I have time to sit down and unwind, I like to watch something light hearted and amusing on TV. I follow some of the House Wives reality shows. I enjoy reruns of Friends, Seinfeld, etc. And, I also like documentaries on a variety of issues.

2. How long have you been evolved in Papillons and/or Dogs? I got my first purebred dog for exhibition purposes in 1974. That was a Giant Schnauzer. I became involved with many aspects of the sport of dogs. Obedience, Shutzhund, tracking, showing, putting many titles in my dogs in those disciplines. At that time there wasn't as much to do with dogs as there is now. I eventually focused on the conformation ring and began a successful breeding program. I bred many American and Canadian champions and had the Top Working Dog in Canada in 1988. In the early 90's, my daughter wanted a smaller dog to show herself and we began the search for a Papillon. We purchased our first Papillon in 1995. The breed

stole our hearts and we began all over again, showing in obedience, agility, conformation, and starting a breeding program. We have bred numerous American and Canadian champions and finished in the Top 10 in Obedience one year.

- 3. What is the activity or activities that you do with your dog (ie: Agility, Breeding, Rally, etc)?** As mentioned in Question #2, in the beginning when we, myself and my daughter Kristen, were active, there were not as many disciplines to enjoy. At that time the main stays were only obedience and agility as well as conformation.
- 4. What part of the dog activities do you like the most and why?** I love breeding and showing, and then judging dogs. I love to plan a breeding program, watch puppies grow up and then evaluate the success of the breeding, all the while trying to improve each time.
- 5. What variety of Papillon do you have or have bred (Erect Ear or Drop Ear or Both), and tell us a bit about them?** I have only bred the Papillon, erect ear. I had one puppy that grew up to be a drop ear. We began with the Josandre/Kvar line, which went back to the Canadian Jaclair Papillons. We finish all the Papillons we breed. Many also have American titles. I do not campaign dogs to further conformation titles as a lot of my weekends are occupied with travelling to various countries on judging assignments.
- 6. What do you think is the difference between a good dog and a great dog?** There are many, many good dogs and some excellent dogs. They have outstanding characteristics of the breed and very few faults if any. Only the variations in characteristic strengths differentiate them. The excellent dogs have strong outstanding

characteristics. The great dogs take your breath away. They have all the physical attributes of the breed and more. You can't take your eyes off of them. They have attitude and an air about them. They know they are special. Everything flows, balanced. They have the IT factor.

7. **If you could give your 20 yr old self advice today, what would it be?** I wish I would have been more confident and taken more risks. I met a lot of good people but I was too shy to seize the opportunity to make friendships flourish. I should have asked more questions and tried to learn more at that time. I would tell myself to let caution go and to take advantage of every opportunity that is presented to you. Learn something from every dog and every person you have come across or met. They all have something to offer.
8. **What can each of us do to help ensure that our sport and club prosper?** Make friends and support dog fanciers in other breeds. Appreciate other people's opinions. Discuss topics and see both sides. Share your knowledge and learn from others. Be nice! Join an all breed club in your area. Be a working member. Help put on a show, a sanction match, a trial, etc. Be part of the sport of dogs by making things happen! Volunteer!
9. **Through the years the purebred fancy has changed greatly, what do you miss the most?** I miss the numerous fun matches, sanction matches, after hours relaxing gatherings. It seems now everyone is focused on getting points. There are no weekends free for matches, and if they are held at a show, very few attend. Exhibitors just want the real show ring so they can finish fast or get points for rankings. I like staying at shows, watching other groups, engaging in discussions. You get to know people much better when you spend more social time with them.
10. **What would you like to tell the person/mentor that got you involved in Papillons?** Thank you for helping me get through confusing times, teaching me the unwritten rules in a breed that was new to me, introducing me to people that were generous in sharing their knowledge and getting me started with quality dogs.

VIVIAN HOULD OMC - ONTARIO

What is your favourite series, movie or book? I really enjoy Danielle Steel's books. I am not a great movie watcher but I really enjoy watching/ listening file:///C:/Users/Margaret/Downloads/IMG_0097(1).JPG to Andre Rieu and his orchestra. Unfortunately I spend too much time on my computer/iPad. I do read books on my iPad.

Hope everyone has been staying safe. It's been a tough couple years and hopefully we are coming to an end and we will be able to carry on life.

I appreciate the opportunity to share a little about myself with members of Papillon Canada Club. I have been very fortunate to be owned by four wonderful Papillons over a period of about 25 years. Ever since my first dog which was a Shellie/Border Collie (Jaggy) mix and lived to be 21.5 years, I wanted a Papillon. I fell in love with them at a dog show in the 70's. When Jaggy passed in 1985, I contacted many Papillon breeders and no one was willing to sell me a dog because I worked and was out of the house most of the day. At that time, I was desperate for a dog and ended up getting a miniature long haired Dachshund called Lacey. Lacey was a wonderful dog but at the age of 8 years, she developed Cushings. Not much was known about this disease then. Lacey went completely blind within a day. She did not show any other signs of Cushings. I took her to Guelph to the veterinarian school and was told that she might have Cushings. We did all the blood work and it took 2 weeks to get the

results and confirm she had Cushings. I was fortunate to have her for another 5 years. Her blindness was never a major concern once I accepted the fact that she was permanently blind. Once we learned to cope, she was evaluated and qualified as a (St. John Ambulance) SJA Therapy Dog and would visit seniors in a retirement home. She loved her visits and the little treats the seniors would give her. She passed at the age of 13 years.

At this point I had retired from Bell after 33 years. I now could try again to find a Papillon. After many phone calls to all the Papillon Breeders in Ontario (Dogs in Canada), I had a positive response from Cindy Hayes. She had a 1 year old dog that had been returned to her and had been in a crate for most of her life. She turned out to be a great dog even though she would spin all the time cause of her months in a crate. We did all kinds of activities (obedience, agility). She loved to work and I went to a great obedience/agility school. After putting titles on Ruby, we then participated in different shows and travelled around Ontario. Ruby tried out for Super Dogs and then we joined Nutram Performing Dogs. She always was a favorite with the audience because before doing the A frame and some jumps, she would spin. She wasn't the fastest but loved it. She also was tested to be a Therapy Dog. Again she loved being a Therapy Dog and visiting seniors. Because of her love for Therapy Dog work, I started a couple programs for Therapy Dogs to visit children in schools etc. and teach them how to be safe around dogs. As well, we started the library reading program where Therapy Dogs would sit with children and they would read to the dogs. This was a very successful program and enjoyed by all. To this day, I am so thankful to Cindy for allowing me to adopt Ruby. At the age of 10, Ruby was attacked by a yellow lab that was off leash and she nearly died. After this attack she was never the same but did enjoy life. Ruby passed away at 12 and I was completely devastated.

Cindy introduced me to Laurie Cheney and I was fortunate to get a little boy from Laurie. He was also a great little dog but had a rough start. When he was only a year old, he got Leptospirosis. Cinders was so small that we were very concerned that he wouldn't make it. My vet refused to give up on Cinders. My vet had previously acquired Leptospirosis and he nearly died. He was in the hospital in a coma but survived. He was going to do everything for Cinders. Cinders spent 2 weeks at the vet. He was on IV and many meds. He did survive but ended up with one functioning kidney and other health issues. Nevertheless Cinders also became a Therapy Dog and loved it. He was back up for Ruby as I did not want to stress out either dog. Unfortunately because of health issues, Cinders only made it to 11 years. He went completely paralyzed. I have always been very appreciative to Laurie (deceased) for allowing me to share my life with Cinders.

Laurie introduced me to her good friend Erin MacDonald. In 2007, I became the owner of Shasta. Shasta also did obedience and agility and became a Therapy Dog. She visited with seniors and also qualified to visit with children. She participated in all these programs and initially she really enjoyed it. But over time i realized that Shasta was not as excited to visit. She was bored and only liked going out with her mom. Shasta was a very needed dog and suffered from separation anxiety. I tried everything to help her but this was her personality. In 2014, I became the owner of another boy named Timmy. Both Shasta and Timmy came from Erin and I am very appreciative to her for trusting me with her pups. Unfortunately Shasta passed in April 2021 at the age of 13. She was a great girl who loved her mom too much. Timmy is now my only dog and he is spoilt rotten but he is a very special boy! I couldn't ask for better. Unfortunately Timmy never became a Therapy Dog but he would have been great providing this service.

Shortly after I got him, I was diagnosed with cancer. I had surgery and was ok until the cancer metastasized and I went through 7 weeks of daily radiation. The past two years have been really rough with all the side effects of cancer and radiation. I am still suffering today with the side effects. Also it doesn't help to have COVID in the air and I basically have been in quarantine for over 2 years. I am very afraid to get COVID since I know that I may not make it.

Of course during the past couple years, I have had the opportunity to do a lot of reading and computer stuff. Before COVID, I coordinated the volunteers for the local Blood Donor Clinics. I no longer volunteer but I am still continuing to get volunteers for the clinics. We all know how desperate the medical field is in need of blood. I also bowled before COVID and was secretary of the league. Well this is gone too. I hope eventually I can get back to bowling. I also enjoyed playing bridge and that is out for now.

Over the last 25 years, I have been honored with many awards. During the nearly 20 years with SJA Therapy Dogs, I became an Officer in the Order of St. John. It was very special to receive this award. In addition, Governor General Johnson presented to me the Governor General's Caring Canadian Award (2015) and a couple years later I received an award presented to me by Ontario Lieutenant Governor Dowdeswell. This award is called the Ontario Medal of Good Citizenship. Officially I am permitted to put the initials OMA behind my name. I am very proud of all my awards. If you are interested in these presentations, you can visit my web site www.Vivianhould.com.

Finally, in closing I would like to thank Cindy, Laurie and Erin for allowing me to share my life with their pups. Cindy got me involved in Papillon Canada Club. I am forever grateful.

ROBIN MERCER - ONTARIO

1. What is your favourite series, movie or book? That is kind of a tough question as there are more than one favourite!! But in having to choose – I would say that my favourite of all series on TV/Movies is Star Trek – I started to watch it when it first came out in the 60's and to this day I still continue to watch repeats of each and every series they came out with – even the 1960's original!

2. How long have you been involved in Papillons and/or Dogs? I have had dogs in my life "forever". I can remember even when I was as young as 2 yrs old and this big dog we had that we called "Marmaduke" – I would lie on the kitchen floor with him and just be all over him. When I was like 10 yrs old I was saying even then that raising dogs is what I wanted to do and that I wanted to raise Registered dogs according to the standard of the breed. I

was reading books about dogs and kennel buildings and anything else I could get my hands on for information. We just always had dogs around.

My actual start in seeing those dreams come true was in 1992 when I had acquired my first breed – the Maltese. It wasn't until later on in the 90's when I brought home my first Papillon.

3. What is the activity or activities that you do with your dog (ie: Agility, Breeding, Rally, etc)? I had done a lot of conformation showing with my dogs from the late 90's up through 2014 along with breeding. I still breed my dogs and always keep the option open to getting out in the ring again.

4. What part of the dog activities do you like the most and why? The activity that I enjoyed the most with my dogs was "conformation". When I first got involved in showing there were many other breeders within Ontario also showing so there were a lot of great times getting together at the shows and talking "dog" that just really made for a great way to get out and meet new people and learn more about the breed.

For now I still raise the occasional litter each year which is also quite exciting as each and every litter is always full of surprises – its almost like opening up a box of "cracker jacks" – you get a new surprise in overall markings, colours etc. in each and every litter.

And even though raising the dogs comes with its good/bad times, the happiness that our puppies have brought to us and their new families over the years is just one of the reasons why we have continued on.

5. **What variety of Papillon do you have or have bred (Erect Ear or Drop Ear or Both), and tell us a bit about them?** I raise the Erect Ear variety of Papillon. I feel I have been very fortunate with the original lines I had started with as they had provided me with a good foundation of breeding and show dogs that had great overall personalities, temperaments, health and structure which has carried on over these many years.
6. **What do you think is the difference between a good dog and a great dog?** A good dog vs a great dog comes down to overall health, personality, temperament, structure and how they end up maturing out etc. within their individual families once placed.

So basically good vs great is really more just all in the eye of the beholder – I feel that everyone feels what dogs they have as part of their home is the greatest companion, show, breeding etc. dog ever!

When I'm looking for something that I wish to incorporate into a show/breeding program I look for "more" than what I would consider placing in a pet home. You want something as close to standard as you can achieve that has the "I want to get out there and show" type attitude – you want a well balanced puppy that will mature out and produce for you the same.

That puppy you may have felt that was "good" – but placed as a pet – ends of being the greatest new addition ever to the new family.

7. **If you could give your 20 yr old self advice today, what would it be?** The one main thing I would have done was a bit more research and maybe have looked more into lines that at the time were more along what was considered back in the day "top of the lines dogs" that went on to be the Specials type dogs etc. Although I had done quite well with showing and finishing many of my own home raised champions from the lines I did start out with, I never really did any of that "Specials" type showing.
8. **What can each of us do to help ensure that our sport and club prosper?** Being able to help out in any way be it with a Specialty, Booster, Fund raising or just being available to give out information regarding the Papillon breed to anyone looking for advice are a few ways club members can help.
9. **Through the years the purebred fancy has changed greatly, what do you miss the most?** I feel that I had been fortunate enough to have gotten involved with the breed at the best of times. There were a lot more breeders then and these breeders were all in for learning as much as they could about the breed and sharing their information with others. We had the good fortune of dog shows with many entries, the boosters with the comraderie that I find (at least in our area) – no longer exists. The sharing of information and people actually being appreciative of the help they received from those breeders who had more insight/experience with the breed.

We had wonderful tools at our disposal to use – books, the best one being the one published by Clarice Waud and Mark Hutchings. And a wonderful pamphlet put together by Nancy Pinke called "A Study of the Butterfly Dog" that were real must haves for any serious Papillon breeder as these books were filled with numerous pictures of the breed showing the perfect papillon along with example of the numerous faults that were to help people with their breeding programs to strive to breed the better dogs. Even the Papillon Canada Handbooks which I was fortunate enough to have been able to be apart of putting together. These tools are all still available, but I don't feel they are being utilized as they were when I first got involved with the breed. We also the many seminars and weekend symposiums that many would drive for hours to attend!

I started to find that in later years (and even now) many people just wanted the dogs to breed and none of the knowledge that came with from other breeders or the books, seminars etc. to help them achieve the goal of dogs with really good structure, movement, personalities, temperaments etc.

JENNIFER RAYMAAKERS – ALBERTA

1. What is your favourite series, movie or book? This is a loaded question, as an avid reader I have many favorite book series so it would be near impossible for me to choose just one and not end up with a well detailed book list. Topping my list would be Harry Potter by JK Rowling, I've been a fan since before the movies hit the big screen, Lords of the Underworld by Gena Showalters is probably a long-time favorite as an adult, pretty much anything written by Gena tops my list of favorites. I tend to lean towards fantasy genre with a romantic twist. But will devour anything that catches my interest. I also fell a bit in love with a series written by a Cardigan Welsh Corgi Breeder called "Murder at the Dog Show" by Karen Harbert, it was cute and has its funny moments throughout the series. Also, it's always fun to read a story surrounding something you love doing, recently I have been corresponding over e-mail with

Karen which just absolutely thrills me, she is in the process of writing a new book. I am usually reading two or three things at a time.

Movies I would have to say Harry Potter, Fantastic Beasts and Where to Find them, Lord of the Rings, Star Wars, and pretty much anything Marvel again I am sure you can see a theme here; anything fantasy it right up my ally.

Favorite TV shows, all-time favorites would have to be Friends and Buffy The Vampire Slayer I have watched them too many times to count. Right now, I am waiting on the new season of Stranger Things to make its long-awaited debut and I'm waiting on the new seasons of 9-1-1 and 9-1-1 Lone Star.

- 2. How long have you been involved in Papillons and/or Dogs?** I got my first papillon when I was a young child and actually did a small bit of junior handling way back then but didn't stick with it. I started in the show ring back in 2002 with my very own papillon I saved up for and paid for myself. I have had a number of dogs in the top standings throughout the years including a National winning #1 Papillon from my own breeding program.
- 3. What is the activity or activities that you do with your dog (ie: Agility, Breeding, Rally, etc)?** I compete in conformation with my papillons, I have played a bit with Rally but have not competed yet due to some pretty series time constraints and inability to attend shows over the past couple of years. I have been breeding papillons for many years though stepped back for few years when my work did not allow for the time and concentration needed to raise puppies. I dabble in Trick dog stuff and did put a trick dog title on Arson during covid, I have a couple others that I've been working with but haven't nailed it fully down yet.
- 4. What part of the dog activities do you like the most and why?** The part I like the most is gaining that trust and building that relationship with your dog. Not every dog is the same and no matter how long you have been doing this you will come face to face with the one who will make you rethink everything you have ever learned, the challenge in these dogs is nothing short of amazing and the harder you both work towards that goal the better the satisfaction and joy you get when you finally reach that goal. The challenge, the partnership all of these things are what gets me back out their time and time again.

- 5. What variety of Papillon do you have or have bred (Erect Ear or Drop Ear or Both), and tell us a bit about them?** I have always owned the Erect Ear Papillons until recently when I brought into my home a beautiful drop eared girl I am over the moon with. The Papillon will always be my first love but I have always found the Phalene so endearing and I knew one day I would own one, it was finally made possible this past November and I could not be more excited. I have had many lovely representations of the breed throughout the years and could not be more thank full to those who entrusted me with a little piece of their hard work and helped me work towards my own goals and accomplishments.
- 6. What do you think is the difference between a good dog and a great dog?** In my mind the difference between a good dog and a great dog is that “spark” that something special that you see in them from a young age, something that make you have that “ah ha” moment. That Great dog will likely make you work your butt off to get where you want to go but once you build that partnership and respect there is nothing stopping you. Nothing good in life should ever be easy and I think the same should go for the Great Dogs in our lives. All Great and Good dogs are a crucial part in each and every one of our lives and I have been lucky to find those Great dogs and each and every one made me work for it but when that moment came it was so satisfying.
- 7. If you could give your 20 yr old self advice today, what would it be?** Stick with your gut, know your mind and keep pushing forward, you will get there!
- 8. What can each of us do to help ensure that our sport and club prosper?** Look after the New or Young members, help them, treat them with respect. It’s a hard community to get into often because time isn’t taken to offer a helping hand, an encouraging word. If we don’t look after these people the sport will eventually fade away. Too often there is a bad stigma associated with dog shows, between negativity and politics which happen in any sport, its always nice to find that person who will offer a kind word or support. Furthermore, we need to be ambassadors for our breeds, really for any purebred breed. Take the time to answers someone questions, point them in the proper direction to finding those answers or the person who might be able to help them even if it isn’t your breed. This is the only way we can help this sport and the clubs prosper.
- 9. Through the years the purebred fancy has changed greatly, what do you miss the most?** I probably miss the numbers the most, the shows when I first started out were so large, the numbers were massive. Entries were so much more then they are now. I miss seeing a lot of younger individuals showing and helping the handlers and their parents, it seems to me that there are less of the younger generations hanging around. I hope it’s just a product of Covid since we definitely need those youngsters to want to be involved.
- 10. What would you like to tell the person/mentor that got you involved in Papillons?** I fell in the love with the breed as a child after my mother did research on the breed and decided it was a perfect fit for our family and we had our first papillon join the family. Throughout the years there have been many people I am very thankful to have had in my life. I happened to find my most supportive mentors outside our breed and cannot thank those individuals enough. I have had many supportive individuals within our breed and have made some incredible relationships/friendships with those people and can never thank them enough for the support and trust they have offered.

DONNA SIEBEN - ALBERTA

1. What is your favourite series, movie or book?

I have so many favorite positive dog training type books it's too hard to choose just one, but I can say my all-time favorite movie series is Downton Abbey.

2. How long have you been evolved in Papillons and/or Dogs?

I don't remember a time when I haven't been involved with dogs. Even as a child I remember attempting to train and offer the family dogs enrichment. I saw my first Papillons when I was 12 years old and was impressed with their alertness and intelligence. I was finally able to get my first papillon in 2000 and have 5 more paps since...and still have 4 of them.

3. **What is the activity or activities that you do with your dog (ie: Agility, Breeding, Rally, etc)?** I have basically tried every dog performance type event available to me and my dogs. If their tails are wagging and they are enjoying it...we will play it. We have earned titles in agility, tracking, obedience, rally, trick dog, scentwork, barnhunt, scenthurdle as well as certification in a therapy dog program.
4. **What part of the dog activities do you like the most and why?** I think I enjoy the training process the most. I love to find positive ways to train my dogs at their own speed, this helps build a stronger bond with the dog and also offers their lives more enrichment.
5. **What variety of Papillon do you have or have bred (Erect Ear or Drop Ear or Both), and tell us a bit about them?** All my dogs are erect ear papillons. My sweet oldest boy Ripley is 11 years old and still eager to learn new activities. He has earned his Papillon Canada Diamond Performance Versatility Certificate doing a wide variety of performance sports. The amazing Dez is 8 years old and is a wonderful certified therapy dog and has also has some performance titles. Cash is 4 years old and a real character, he excelled as my demo dog for my Karen Pryor Academy Certified Training Partner Program. Young Pocket (Kit) is 2 years old and we are just figuring out what he would like to do, so far I think he is heading in the direction of the Pet Partners Therapy Dog Program.
6. **What do you think is the difference between a good dog and a great dog?** I think the only difference between a good dog and a great dog is the handler's attitude. I think all dogs are great if they are given the opportunity to find what activity suits them and are given the positive training to excel at it.
7. **If you could give your 20 yr old self advice today, what would it be?** Oh there is so much advice I wish I would have taken! I guess the biggest thing I wish I knew when I was 20 years old is how fantastic positive training methods are for both the dog and the handler. I am thankful that dog training has evolved the way it has and we continue to learn the benefits and apply these techniques.
8. **What can each of us do to help ensure that our sport and club prosper?** The most important thing we can all do to make sure clubs prosper is to remember we were all new to the world of purebred dogs at one time and we need to be approachable, and welcoming to newcomers. Spending time and enthusiastically sharing knowledge with new club members will help the club grow in numbers and prosper.

9. **Through the years the purebred fancy has changed greatly, what do you miss the most?** Probably the thing I miss most from the world of dogs of many years ago is the closeness of the dog community. Back then you met people in person face to face and your circle of dog enthusiast friends was fairly small. Though social media has made communication so much easier to share our lives with others, it's just not the same as face to face interactions.
10. **What would you like to tell the person/mentor that got you involved in Papillons?** I would like to tell the wonderful breeders who shared their amazing papillons with me over the years that I really appreciate the trust you put in me as well as all the knowledge they shared. I was blessed with wonderful breeders who willingly answered every silly question I had over the years. I have to say....friends I have met through the world of dogs many many years ago are still some of my best friends. Our shared interest and admiration for the papillon breed and dog sports has carried our friendship through many years. Dog people are the best! :)

Litter News: Members can submit a picture of puppies (with mom) for submission into this section of the newsletter. **Criteria:** Only information will be the following: Sire – Dam – Breeder - # and breakdown on puppies and Date of Birth, with 1 picture. **This is FREE.** Put in Subject line of email: **PC Litter News**. Please ensure that you also submit a complete write up to your director for their reports (with more details).

Sire - Ch Annacott Charming Chico (Chico)
Dam - Ch Annacott Animato Ease Into It CRN (Stormy)
Breeder - Yvonne Lord, Frank LaFrance, Moira Ure
of Puppies – 3 girls & 1 boy
Date of Birth – Jan 8-2022

Sire - Disyre Ever Ready
Dam - Ch. Valifyre Goodbye Kiss
Breeder - Kelley & Case Laan
of Puppies – 1 male, 2 female
Date of Birth – January 23, 2022

History of
Papillons
In Canada

History of Papillons in Canada Update – Papillon Canada Handbook 2000

The Update: (listed by Kennel name, then owner and province).

Several of the founding and long time breeders are no longer active but some are still going strong. Below are the updates on the established kennels, introduction to the new ones and a salute to those no longer with us:

Annacott (Moira Ure, AB) Moira has continued to pursue her interest in phalenes and imported Glenscot Bonnie Lassie (Mhairi) in 1995, a wonderful little girl with 5 generations of phalenes behind her. The phalenes have been attracting a lot of attention with Annacott Little Luthias having completed his American Championship and Annacott Brittany and Annacott Brigadoon winning well on both sides of the border. Moira has also continued with her papillons. Both papillons and phalenes, have done well at the US Nationals, with four dogs being in the winners line up and another in for reserve at the last three Nationals. Moira keeps only a limited number of dogs and has been breeding only one litter a year for the past few years.

Arkeno (Kim McKay & Murray Berg, AB) Kim and Murray continue to breed and show their Papillons with close to 100 Champions. Cody (Ch Lightfoot's Fast Talker), #1 Papillon in 1986, became the cornerstone of Arkeno and although used very sparingly, produced many Champions including Ch Arkeno's The Sting at Mantoga BIS, Can AmCh Arkeno's Storm Warning Can Am CD and Multi BIS BISS Can Am Bda Ch Arkeno's Memphis Blues. Combining the imported lines of Champion Lordrake Rolo, Talia, Reel O'Cotton (dam of 16 champions), Top Notch, You're My Dream, Xatina and the very typey Eng BIS winner Sha Sha Adure from David and Pauline Abbott of Lordrake Papillons in England, resulted in the winning combination for Arkeno, producing internationally competitive, healthy Papillons of structural soundness and beautiful temperament

Baskin (Barb Hoskin, ON) Barb purchased her first Papillon in 1991. In 1992 Ch Hayeshaven Keegan was purchased and shown to his championship and in 1993 her foundation bitch. Ch Hayeshaven Sere was purchased. Sere finished in two weekends from the puppy classes. With limited breeding and showing there have been four champions produced and others to be shown in 2000. Barb hopes to enjoy many years with this wonderful breed.

Bijou (Janet & Erica Busch, ON) Beauty with Brains. We are dedicated to the long range welfare of the Papillon.

Bluechip (Olga & Kristen Gagne, ON) Bluechip is a small select group of papillons that make our home active and happy. They are all titled champions in Canada and some are US champions also. As well as the show activities, the dogs enjoy taking part in obedience and agility.

Breezvae (Cindy Hook, ON) Where type and soundness go hand in hand. Home of 31 Canadian Champions, 26 bred at Breezvae, with others well on their way. Breeder of Multiple Group winners and placers, with 3 different Best Puppy in Show winners and 1 Best Puppy in Specialty Show winner. 1998 Purina Breeder of the Year.

Casana (John Morin, ON) Casana Papillons has always been a small kennel. I remain small to enable my breeding program to develop a Papillon of class. With the combination of British stock and the finest of Canadian stock, my dogs have become known for their quality, soundness, good movement and excellent temperament. Of course, this is not done without the help of other outstanding kennels, my Thanks go to Caswell, Iffly, Gossamer, Kernow and Copper Mist Kennels for their guidance and patience in helping me develop Casana Papillons.

History of Papillons in Canada Update – Papillon Canada Handbook 2000

Comsilk (Erin Hennaert, ON) While I have shown dogs all my life, I acquired my first papillon in 1992. My first litter was born in 1994, and since then have gone on to breed many champions, as well as a specialty winner, and several group winners and placers. My foundation bitch is from Kvar Kennels (USA) and the stud dogs that make up my breeding program have included dogs from the USA, England and Sweden.

Crosspoint (Zelda Cross, ON) Crosspoint originally bred Brittany's til purchasing our first Papillon Cricket of Chrizrick Kennels. A lovely bitch who earned her Championship, she was our first therapy dog, and gave us two homegrown Champions, along with Rambo, a Can Am CDX, Multiple HIT dog, owned and trained by Marg Hacking. With the addition of Hayeshaven Marble and Ch Hayeshaven Red Cedar, we will continue to breed this marvelous little dog, for sound mind and body, in our home and underfoot.

Glenmargo (Marj Scott, BC) has been breeding since 1969. Many, many Glenmargo Papillons have finished their Championships and/or their Obedience titles. The latest outstanding obedience achievement was made by Heather Box and OTCh & Ch Glenmargo's Fancy Red Lace, who was # 1 Toy/# 1 Papillon 1995; # 7 Toy /# 3 Papillon 1996; # 6 Toy /# 2 Papillon 1997 and # 5 Toy/# 2 Papillon 1998.

Glintondale (Rosemary Hagen, ON) has been breeding and showing Papillons for quite a number of years. Several of her dogs have done very well, including her import "Ch Rimzim Leila". Leila won a Best in Show in 1988 and was the Toy Group Winner at the Purina Show of Shows that year.

Gnomehaven (Bett Nielsen, NS) Bett acquired her first Papillon, Ch Fitchenwald's Bonita Mikka CDX in 1985. Mikka became the dam of Bett's foundation bitch, Ch Gnomehaven's Golden Farli CD. Bett is involved in Conformation and Obedience work with her Papillons. Farli has also performed in the SuperDogs production. Bett has been an active supporter of Papillons, serving several terms on the Board of Directors and showcasing the breed at various local Pet Expositions. She is also active with the Papillon Rescue Committee.

Gossamer (Diana Pierce, QC) (formerly Akarana) date from 1970 with importations from Thingden and Quinetta in the UK. Correct breed type, combined with soundness and intelligence, have always been our goal. Ch Gossamer's Lucretia, who was BOS at Papillon Canada's 1997 Specialty Show, has also achieved an agility title. Her sister's Gossamer Legacy and Gossamer Alicia were the top two papillons in Canadian agility in 1999.

Hayeshaven (Cindy Hayes, ON) Hayeshaven began with the Wynfield line and continued their tradition of breeding for soundness combined with terrific temperament. Earning the 1994 Pedigree Breeder of the Year thanks entirely to the purchasers who completed the Championships of their Hayeshaven Papillons. Hayeshaven was dispersed in 1998, while Cindy takes a hiatus. Cindy has served Papillon Canada as Newsletter Editor (for 6 years), publishing the 1st handbook and the 2nd handbook, along with the production of the club pins and is the current Club Secretary.

Jaclair (Carol McLaughlin, AB) I am pleased to be breeding and enjoying papillon under the "Jaclair" name. My mother started this kennel in 1960. I have lived with and loved papillons ever since. In the early 1990's, I decided to reestablish the Jaclair line. After careful research I found Ch Lighttoots Allo at Jaclair and Ch Josandre' GG Miss Molly, who both go strongly back to well known Jaclair dogs. They have so far produced several beautiful puppies including Ch Jaclair's Encore, who I hope will be the foundation of the new Jaclair.

History of Papillons in Canada Update – Papillon Canada Handbook 2000

Jordannas (Lynne Beilhartz, ON) purchased my first papillon from Rosvaire Kennels in 1996. Since then I have put championships on two homebred littermates. I have been active in dogs since 1980 with conformation and obedience boxers and have added agility with the papillons. An active member of several kennel clubs and the coordinator of our local training center. I take as many educational courses as I can to upgrade my skills as a competitor and potential conformation judge.

Kenrennie (Kenworthy, BC) Betty bred and showed her Kenrennie line until her death in 1996. Sam, her husband and Shirra, her daughter have continued the kennel in memory of Betty. Betty's dogs earned many championships and obedience titles and they continue to do so today. Her line can be found in many Canadian and US pedigrees. Her line's influence will continue for a long time. Betty is greatly missed.

Kernow (Gillian Hunn, ON) has been involved with purebred dogs all her life, living with Cairn Terriers and Rhodesian Ridgebacks as a youngster in England. Her first attempt at obedience training was in 1962. After moving to Canada and the US with her husband and family, she returned to Canada and the sport again in 1973, with some success. After putting an OTCh on her Mini Schnauzer and training her rescue Mini Poodle to Utility, Ch & OTCh Jaclair's Tracikin UD Am CDX, came to her through Diana Pierce in 1977. Traci became the foundation of Kernow Papillons and finished her Ch and OTCh easily. She was the dam of an OTCh litter, four generations of homebred, owner handled Group Placers, Can & Am Champions, BPIS and BPIG winners.

Kinduhaven (Belle Darris, NS) Belle purchased her first Papillon in 1981 but didn't produce her first litter until 10 years later, the dam being her foundation bitch, Ch Maywoods Bella Pandora. Belle imported Ch Tanarglen Wee Colonial Boy CD (GRB) He was # 5 Papillon in 1988 and her Ch Luxxor's Trustworthy (USA) was # 2 in 1993. Kinduhaven Papillons are active in Conformation, Obedience and Therapy Dog work, living up to the Kennel's slogan "Winning hearts in the home and ribbons in the ring". Belle is currently serving her second stint as President of Papillon Canada and has also served as Regional Director and Newsletter Editor in the past. Belle is also the owner and publisher of Papillon News, a bi-monthly newsletter for Papillon Lovers.

Mantoga (Jo Raymer, AB) has been active in the ring for a number of years with her Ch Arkeno's the Sting at Mantoga. Sting has placed in the top 5 Papillon standings for the last 4 years, twice gaining the Number 1 spot. Sting also has 2 Best In Shows to her credit. Jo has imported several Ringlands dogs, who have completed their Championships with many Group wins and placements.

Maplerich (Laurie Cheney, ON) received their first papillon from Patricia Hritzo of North Starr's fame. North Starr's No Nonsense (Silky) finished her Canadian Championship very easily, winning Best of Breeds from the classes. Now, at the age of 5, she has finished her American Championship. She has two Ch. offspring. Golden Retrievers are our first breed, but we at Maplerich are totally smitten with these wonderful butterfly dogs!" All papillons sold at Maplerich are on a non-breeding contract. Healthy, happy, home raised puppies.

Maringay (Fowler, Scotland) Gladys was famous for her Maringay Papillons. These papillons were the foundation of her daughter, Moira Ure's Annacott line. Gladys was one of the pioneers of Papillons in Scotland and her line's influence can be felt in many pedigrees. Gladys passed away in 1996 and she is sadly missed.

History of Papillons in Canada Update – Papillon Canada Handbook 2000

Mercer (Robin Mercer, ON) I started with this most wonderful breed in 1995 having acquired my first Papillon “Crystal” from Sherrie & Jim Puzak (USA). I was so taken with the breed and wanted to get into showing, so I later acquired other dogs from Sherri, one of which was our first Canadian Champion Sherjak’s Mighty Fancy (Butchie) Over the past 3 years, my daughter Aimee and I have continued to show my homebred puppies and we have finished 4 champions, with others pointed.

Minifée (Edith & Denis Bertrand, QC) My husband and I are proud to show you our kennel Minifée. We got our first papillon in 1995 and we have bred papillons since 1997. We also have Phalenes, but we aren’t breeding them yet. Most of our lines come from Europe. We have 2 Canadian Champions, one is our first Phalene male. All our dogs are raised in the family with love.

Nymphenberg (Smith, BC) Harvey was a long time fancier and bred very seldom. He was a founding member of the Papillon Canada and a very active supporter for over 30 years. Sadly Harvey passed away March 7, 2000 and is greatly missed by many.

Rosvaire (Vaire Solandt, ON) is active still. Her dogs have done quite well in conformation, beginning with Ch Oxney Fella #1 Pap, #5 toy in 1972, followed by Ch Rosvaire Renoir #2 pap 1975 (sone of Ch Oxney Fella); Ch Cherubs Rebel of Rosvaire #2 Pap 1982; Ch Roavaire Rapid Transit #3 Pap 1983 (Cherub’s son); Ch Rosvaire Ring in the New #1 in 1985 and #2 in 1986; Ch Rosvaire Rhythm of the Rain #4 in 1989. She continues to place in the top 5 papillons with her most recent Ch Monteith Rosvaire Busy Signal #2 Pap in 1991 – bred by Shirley Waller. “Polly” has also earned her American Championship and placed many times in the Group in Canada. Rosvaire has never produced a lot of litters, opting instead for producing good puppies.

Sealoch (Grant & Melissa Fancey, NS) Grant and Melissa have bred and/or owned 50 Shetland Sheepdog Champions, including 5 Record of Merit and High in Trial and Best in show and Best in Specialty winners since 1978. They obtained their first Papillons in 1997 from Jo Raymer’s Mantoga Kennels. Their foundation bitch, Ch Mantoga Sealoch Argentina produced the first Sealoch Papillon litter in 1999. Grant & Melissa participate in conformation and obedience competitions. They are also active in their local volunteer programs, which include a Canine Program at the local Women’s Prison and Therapy dog visits to Senior Citizen Homes. Melissa is the Web Master of her recently compiled Papluser’s List, a compilation of Papillon owners/breeders around the world.

Wynfield (Inson, Ontario) Rosa Passed away December 11, 1993. Her daughter, Joyce Snider and then her granddaughter Virginia Hansford continued the kennel until the early 1990’s. Wynfield’s is no longer actively breeding/showing but their legacy lives on in pedigrees of Papillons today. Rosa, a life member of the CKC and Papillon Club of America, is sadly missed.

Brag's: Submit 1 picture for this section of the newsletter (only wins within the last 12mts), with only the following information: **Registered name, Call Name, Owner and/or Breeder, win/or title attained and show. This is FREE** - Put in Subject line of email: **PC Brags** Also- submit a complete write up to your director for their reports (with more details) on this Brag

Registered Name - Multi HIT, OTCH CH Riff Raff Ridiculed RAE CDI RI CAX RATO ATD, AM CD RE

Call Name: Riddle
